Shower points damaged

Number of Sites Affected by LGA

With the onset of the rainy season in Nigeria's north-eastern State of Borno, varying degrees of damages are expected to infrastructures (self-made and constructed) in camps and camp-like settings, as the rains are more often than not accompanied by very high winds and have been known to cause serious damage to properties.

On 27 May 2017, IOM carried out an assessment to ascertain the level of damage sustained in camps and camp-like settings due to the storm on the previous day. 20 camps were affected out of the 44 camps assessed in Maiduguri Metropolitan Council (MMC), Jere, Kaga and Konduga Local Government Areas.

The worst-hit of the camps assessed was the Boarding Primary School in Konduga with 174 damaged shelters which had left 239 HH (1,457 INDS) without shelter.

Major complaints in the assessed camps were lack of shelter repair kits and lack of drainage. Future rainfall will increase the area that gets flooded, leading to reduced space for movement in the camp as well as relating health issues.
