Shelters damaged

**37**

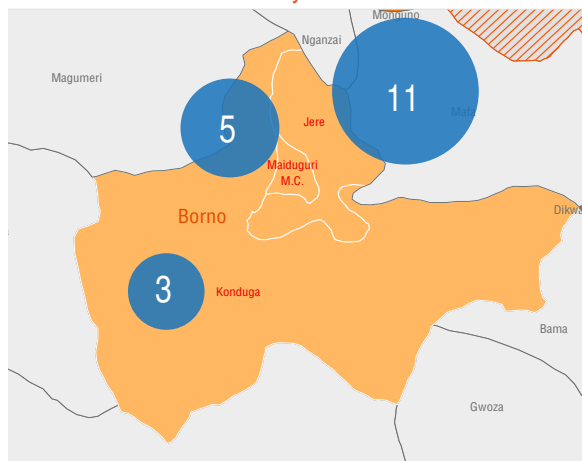

Latrines damaged

**52**

Shower points damaged

### Number of Sites Affected by LGA

With the onset of the raining season in Borno State, varying degrees of damages are expected to infrastructures (self-made and constructed) in camps and camp-like settings, as the storms are more often than not accompanied by very high winds and have been known to cause serious damage to properties.

On 13 June 2017, IOM carried out an assessment to ascertain the level of damage sustained in camps and camp-like settings because of the storm on the previous day. Out of the 44 camps assessed, Twelve (12) camps have been affected by the damage to the shelters and facilities and Ten (10) camps experienced flash flooding in Maiduguri Metropolitan Council, Jere and Konduga Local Governments.

The worst hit of all the camps assessed was Boarding School Camp, with 18 destroyed shelters and 134 partially damaged shelters.

EL-Miskin Transit Camp, Kawarmela, Farm Center, Madinatu, Muna Da'lti 1A, 2A and 2B, Muna Moforo and Goni Kachallari Camps were flooded as a result of the storm.

Some of the major complaints in the camps that were assessed were: lack of shelter repair kits; lack of drainage that led to flooding; and lack of 24 hrs operational health facilities. Future rainfalls will increase the size of the flooded areas leading to reduced space for movement in the camp as well as associated health issues.
